

INDIRA GAS AND PETROLEUM PRIVATE LIMITED

1418

Sr. No.-

GENERAL NOTICE

Date - Subject: Invocation of Force Majeure – Temporary Disruption / Limitation in Supply of LPG

Date: 11 / 03/ 2026

To,
All Authorized Dealers and Distributors

Dear Sir/Madam,

This is to inform all our valued Dealers and Distributors that due to the prevailing extraordinary geopolitical developments in the Middle East region, which have significantly impacted the global crude oil supply chain and petroleum product availability, the Government of India has recently implemented policy-level adjustments and regulatory controls affecting supply allocations from domestic refineries.

As a consequence of the above circumstances, the availability of LPG to market participants has been severely constrained, and priority allocations are presently being directed towards domestic household LPG requirements in the larger public interest. In view of these regulatory directions and supply limitations from refineries, the Company is presently unable to ensure uninterrupted supply of Commercial and domestic LPG in the quantities and timelines that were previously maintained.

Accordingly, Indira Gas and Petroleum Private Limited hereby formally invokes the Force Majeure provisions applicable to its commercial arrangements with its Dealers and Distributors.

Due to the aforesaid events, which are beyond the reasonable control of the Company, the following conditions shall temporarily apply:

- Supply of Commercial LPG is temporarily suspended.
- Priority allocation is being given to Domestic LPG supply in accordance with prevailing governmental policies and directives.
- Any delay, shortfall, or interruption in supply arising from these circumstances shall not constitute a breach of contract or liability on the part of the Company.
- The Company shall make all reasonable commercial efforts to restore regular supply as soon as the situation stabilizes and refinery allocations normalize.
- This situation has arisen due to external circumstances, regulatory interventions, and international market disruptions, and therefore falls within the scope of Force Majeure events as recognized under applicable commercial agreements and legal principles.

All Dealers and Distributors are requested to extend their cooperation and understanding during this temporary period of disruption. The Company will keep all stakeholders informed regarding further developments and the restoration of normal supply operations.

We sincerely appreciate your continued support and cooperation.

For Indira Gas and Petroleum Private Limited
